

Ready to start your career in energy?

Launch your career in solar! Goodwill offers a four-week, 160-hour training course that gives you the hands-on experience you need to become a solar installer in this high-demand industry.

The Goodwill Clean Tech Accelerator (GCTA) is designed to prepare you for a rewarding career. You'll receive:

- **High-Value, Transferable Skills:** Master technical fundamentals and workplace readiness for success in any trade (construction basics, safety, customer service, and more).
- **Comprehensive Career Support:** Access personalized career coaching, resume help, and job placement assistance.
- **Career Growth:** Enter the booming clean energy field and start earning \$20+/hour with a clear career pathway.

Training specifics: Must be 18 and a high school graduate or equivalent to participate and comfortable with heights. Four-week training course, 40 hours per week.

"When I joined the Goodwill program, it was a chance to learn a skilled trade. Now, I have a career instead of a job."

- Ronald, GCTA Trainee
