

# Power the future with Goodwill Columbus

## Partner with us to build Ohio's energy workforce

Goodwill Columbus and GRID Alternatives work together to deliver the Goodwill Clean Tech Accelerator (GCTA): an intensive, industry-specific training designed to create highly-skilled trades graduates who are committed to success.

## Connect with qualified candidates

Access pre-vetted, job-ready talent that reduces your hiring costs and employee turnover.

### THE GCTA ADVANTAGE

#### What our graduates bring:

- **Certifications:** OSHA-10, First Aid/CPR/AED, IronRidge Installer, IREC
- **Expertise:** Core trades competencies (electrical, tool use, blueprint reading) and industry-specific skills (solar/storage installation, commissioning, and maintenance)
- **Soft Skills:** Workplace professionalism, safety, and customer service

### PARTNER WITH US

#### Ways to partner:

- **Direct Hiring:** Recruit GCTA graduates for entry-level roles (installer, technician, electrical helper).
- **Host a Tour:** Showcase your worksite and gain exposure with future candidates.
- **Career Readiness:** Conduct mock interviews to help refine our candidates' job-seeking skills.

### CONNECT!
